Wireless internet service the future is now

ONLY FROM SPECTRUM GLOBAL COMMUNICATIONS can you get Wireless Internet Technology. Working with you we will design a practical solution for your wireless needs from systems engineering to installation and maintenance.

Spectrum Wireless Internet offers:

- Speeds faster than dial-up modem connections
- Reliable communication that results in increased productivity
- Connection to the Internet & wireless-savvy devices
- Less expense than traditional dial-up modem connections

At Spectrum, we provide and support all types of computer hardware and software. Our specialties are computer network design, installation and maintenance, allowing us to design a wireless system which integrates seamlessly into your existing network.

Our specialties include:

- Network computer system design, engineering, installation and management
- Local and Wide Area Network (LAN/WAN) configuration
- Virtual Private Network (VPN) design and configuration
- Desktop/workgroup integration of business software, email, internet and fax services
- Telecommunications networking and telephony
- Wireless networking and Internet

Spectrum Global Communications of Gaylord is northern Michigan's leading computer network solutions provider for business. We offer the latest technology and the highest quality products and services available in the region.

Our specialties include:

- Network computer system design, engineering, installation and management, including support and delivery
- Local and Wide Area Network configuration with either Novell or Microsoft NT
- Wireless networking and Internet
- Telecommunications networking and telephony
- Virtual Private Network design and configuration
- Desktop and workgroup integration of business software, email, internet and desktop fax services

In addition, Spectrum provide software and hardware configurations and integration for products from Cisco, 3Com, Lotus, IBM and Intel, among others.

We stand behind our work, no matter what. Our technical support staff is available 24 hours a day every day of the year, even major holidays.

Spectrum Global Communications is committed to providing customers with the best service and products at a competitive price, while maintaining a consistently higher level of quality and service than competitors.
